

**Training Program To Prepare
'PRODUCT CATEGORY TRAINING'**

DESCRIPTION OF THE TRAINING

Product category means different products from one category e.g. all types of Shampoos, this means training of different/all types of shampoos will done in this Category training program. Similarly Cream (all types) will be a category training. It contains category of cosmetic products like Shampoos (Antidandruff, Dry hair, herbal ,oily hair), Creams (All purpose cream, herbal cream, night cream) etc.

These training programs are a great way to start new profitable cosmetics business. Participants of these training programs will have practical experience with their own hands. They will come to know trade secrets and formula secrets which may be used to start a highly profitable cosmetics industry or beauty business.

The making of cosmetics is as simple as making food. You don't need Food Science degree to make food & hence you don't need degree in Chemistry to make cosmetics. The formulas which will be shared in the training program are 'Commercially Proven' Marketable industrial formulas & not just Internet recipes which may or may not work.

Participants will receive a wealth of important information on the basic raw materials that are used. In addition to the information published in this pack, InMc instructors will share several 'insider-secrets' that are not published in any of the InMc literature.

Total no. of Cosmetics product categories available for Training: 15

Number of Categories you selected for training: 3

Number of products in this category : 18
