

**Training Program to Prepare
SPECIAL COSMETICS PRODUCTS**

DESCRIPTION OF THE TRAINING:

Special products are the products which are different than routine skin care & Hair care products. These are specialised products specific for Indian population or for specific category not belonging to routine products.

This is a great way to get- started a profitable business on more serious note with the idea of manufacturing such specialised products. Participants of this training program will get complete know-how about this product & will have practical experience to work with their own hands. You may choose one or more products like Herbal henna, Black henna, Liquid Hair dye & other specialised products like these.

The making of cosmetics is as simple as making food. You don't need Food Science degree to make food & hence you don't need degree in Chemistry to make cosmetics. The formulas which will be shared in the training program are 'Commercially Proven' Marketable industrial formulas & not just Internet recipes which may or may not work.

Participants will receive a wealth of important information on the basic raw materials that are used. In addition to the information published in this pack, InMc instructors will share several 'insider-secrets' that are not published in any of the InMc literature.

Participants will receive a wealth of important information on the basic raw materials that are used. In addition to the information published in this pack, InMc instructors will share several 'insider-secrets' that are not published in any of the InMc literature.

Participants of these intensive training programs will receive theoretical and practical training in the field of cosmetics. These programs are designed for those who want to enter in the manufacturing of various cosmetic products, designed to help everyone associated with the cosmetics industry viz. Manufacturers, new cosmetic chemists, cosmetologists and technicians.
